

ABVE Speaker Compensation Proposal for ABVE Training Program
From: Terry Leslie

One of the things that I have been working on for the past several months is to develop a training program for new vocational experts. ABVE will be having training programs throughout the year which will be more in depth than what we can provide in a traditional conference or even pre-conference session. As this will be a longer training program, as an organization we need to develop a policy outlining how the instructors are going to be compensated. I believe that this can be placed in the Policy and Procedures Manual for ABVE. The proposal would be as follows:

For all ABVE instructional programs which do not take place during the ABVE conference, the speakers and ABVE will share in the income generated by the course. After any and all expenses have been paid for by hosting the program; for example, Zoom, Google Classroom, CEU expenses, etc., the speaker will receive 70% of the net and ABVE will receive 30% of the net.

My goal is to make this a win-win for instructors and ABVE. This will be placed on the agenda and we can discuss it during the board meeting.

Thanks

Terry
